

# HOW CAN YOU ENHANCE YOUR CAREER?

Certification by Autodesk is recognized as an industry asset – an immediate way for you to stand out and be noticed.

Autodesk has two-levels of credentials: Autodesk Certified User and Autodesk Certified Professional certifications. Learn more about these certifications and identify when each one is right for you based on your current career path.

	Autodesk Certified User (ACU)	Autodesk Certified Professional (ACP)
What is it?	Autodesk Certified User (ACU) certification asks for about 150 hours of real-world Autodesk software experience to validate their software skills.	Autodesk Certified Professional (ACP) is for advanced and professional Autodesk software users who possess at least 400 hours of real-world Autodesk software experience.
For what kind of job role is it suited?	An individual with the ACU is armed with the credentials to get internships, a first job out of school, or credit for college-level programs in design and engineering industries.	An individual with the ACP is a qualified professional in the fields such as Animation, Architectural Engineering, Architecture, Construction Management, Drafting, Engineering, Entertainment & Media, Industrial Design, Interior Design, Makers, Manufacturing, and Sustainability. For students or employees working to advance and validate their Autodesk skills. ACP is an excellent professional development opportunity for teachers, instructors and academic administrators.
What products are covered?	Currently, the ACU exams are available for the following Autodesk® products: AutoCAD®, Inventor®, Revit: Architecture®, 3ds Max®, Maya®, Fusion 360®.  View current exams at <a href="http://www.Certiport.com/Autodesk">www.Certiport.com/Autodesk</a> .	Currently, the ACP exams are available for the following Autodesk® products: AutoCAD®, Civil 3D®, Inventor®, 3ds Max®, Maya®, Revit: Architecture®, Revit: Electrical Building Systems®, Revit: Mechanical Building Systems®, Revit: Structure®.  View current exams at <a href="http://www.Certiport.com/Autodesk">www.Certiport.com/Autodesk</a> .
How do I prepare for an exam?	There are a few ways to prepare to take the exams: use self-study materials from approved publishers that align with the ACU exam objectives and take an official ACU Practice Test. Autodesk offers materials that instructors can use to build courses that prepare students for the certification exams.	There are several learning options that help prepare you to take the ACP exams: training from an Autodesk Authorized Testing Center, books from official Autodesk publishers, and/or self-paced training from online training providers.  If you have taken an ACU exam, you can gain experience with daily use of the product and find additional training resources and classes.
Do I need work experience in order to succeed on an exam?	Use products casually or take a course series.	Use the Autodesk products as part of their daily job role, and typically have a minimum of two years' experience.
Where can I get training?	Education institution courses or self-paced resources available.	Find an Autodesk Authorized Training Centers.
Where can I take exams?	Exams can be taken at any Certiport Authorized Testing Center. Instructors can set up their own institution as a testing center to allow staff and students to take exams on-site, or you can locate a testing center near you at <a href="http://www.Certiport.com">www.Certiport.com</a> .	Exams can be taken at any Certiport Authorized Testing Center or and Autodesk Authorized Training Center.
Is a digital version of the certificate available to share?	Digital certification is viewable at <a href="http://www.Certiport.com">www.Certiport.com</a> using a Certiport test candidate ID. Download, print, and share the official certificate and certification logo. Digital certification badges can be claimed at <a href="http://www.youracclaim.com">www.youracclaim.com</a> .
